- ✓ Electrical Installations IEC 60364
- ✓ Your bespoke checklists

Benefits with CaaS

Compliance Assurance

Safeguard against compliance issues by having real-time insights into the compliance status of your assets.

Cost Savings

Experience significant cost reductions (up to 45%) compared to traditional pen-and-paper inspection methods.

Efficiency Boost

Streamline your inspection process by transitioning from manual methods to a digital, RFID-enabled system.

Instant Reporting

Gain valuable insights through comprehensive reporting, allowing for better decision-making and strategic planning.

Data Accuracy

Ensure accurate and up-to-date equipment information with the RFID system, reducing errors associated with manual data entry.

Operational Focus

Shift your focus from managing inspections to enhancing operational efficiency and creating more value for your business.

Time Efficiency

Speed up the inspection process and reduce downtime with a more efficient and automated system.

Proof of Concept

SafeEx takes full responsibility, providing a successful proof of concept, demonstrating the optimized inspection process with CaaS.
